Centara Ras Fushi, Maldives

4 Nights | 5 Days

Overview

The Maldives is a nation of islands in the Indian Ocean, that spans across the equator. The country is comprised of

1192 islands that stretch along a length of 871 kilometers. While the country covers an area of approximately 90,000 square kilometers, only 298 square kilometers of that is dry land. The islands are grouped into a double chain of 26 atolls.

The country's unique geography mesmerizes the visitor. Reefs that offer bands of color, tiny jewel-like islands rimmed with the whitest of soft sand surrounded by the clearest shallow waters that one can imagine. Only 200 of the islands are inhabited, and a select few on each of the atolls are resorts and some of the islands are used for industry and agriculture.

While very little is known about the ancient history of the Maldives scholars and historians believe that the Maldives is an old nation populated well over 2500 years ago. The Maldivian race is the result of several waves of settlement from various parts of the Indian subcontinent and thousands of years of interactions of people of different races and ethnicities that crisscrossed the Indian Ocean over several centuries. The country's culture and traditions and the diverse physical traits of the people bear witness to the fact that the country was, due to its geographical location, a melting pot of people and cultures. The Maldivian language is Dhivehi, an Indo-Aryan language with its origins in Sanskrit.

The most recent census in 2014 enumerated the population at 407,660 people. A third of the population lives in Male, while the rest live in 200 island scattered across the length of the country.
